

HI. I'M FULLA 

FULLA 2 CONTROLS & CONNECTIONS

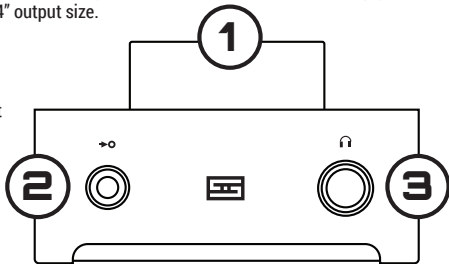

1 Volume Knob. Turn up til you smile, but not until your ears bleed.

2 Analog Input. Yes, *input*. As in, *analog input*. Plug in to a phone or tablet (or any other line-level source) with an 1/8" TRS to TRS or TRS to dual RCA cable to use Fulla 2 as an amplifier alone.

3 Headphone Output. Plug your headphones in here. If you have headphones with a 1/8" plug, you may need an adapter for this standard 1/4" output size.

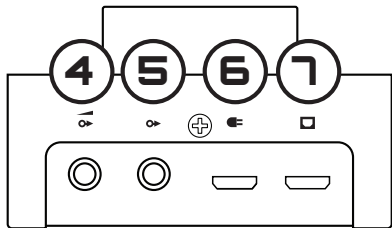

4 Variable Preamp Output. Plug this in to your powered monitors (or a power amp) using a 1/8" TRS to dual RCA cable (for most products--others may need different cables, consult the manufacturer.)

5 Fixed DAC Output. If you'd like to use the Fulla as "just a DAC," you can plug this output into an integrated amp, headphone amp or preamp with a 1/8" TRS to dual RCA cable.

6 USB Power Input. If you get a “this device draws too much power” error, or if your computer doesn’t “see” the Fulla, connect this input to a source providing 5V DC at 500mA or above with a micro USB cable. Your phone charger may work just fine (if it uses micro USB connectors, that is.)

7 USB Power and Data Input. Connect this to your computer or other USB source using the provided micro USB cable, or with another USB 2.0-rated, high-quality micro USB cable.

FULLA 2 OPERATION

Select “I’m Fulla Schiit” in Control Panel/ Sound Devices (PC) or in System Prefs/ Sound (Mac.)

Play some music (some music players will have to be set to “I’m Fulla Schiit” too.)

**That’s it! No drivers, no buttons, no pain.
Just bountiful, healing music.**
